Projects

- **Ticket Management System | Java, OOP, Design Patterns** GitHub
 - Designed a modular issue-tracking backend supporting tickets, users, milestones and comments with JSON-based command processing.
 - Applied Command, Strategy, Factory, Observer and Repository patterns for extensible handlers, event-driven notifications and efficient data access.
- **TerraBot Ecosystem Simulation | Java, OOP, Simulation Systems** GitHub
 - Developed a grid-based ecosystem simulation modeling interactions between environmental entities.
 - Implemented extensible entity hierarchies using object-oriented design (inheritance, abstraction, polymorphism) and dynamic behaviors such as robot exploration, environmental updates and entity interactions.
- **DraWar - Multiplayer AI Drawing Game | JavaScript, Python, Flask, PyTorch | Team of 3** GitHub
 - Developed the interactive drawing interface using HTML, CSS and Canvas API.
 - Implemented client-side game logic and real-time WebSocket communication (Socket.IO) in JavaScript.
 - Integrated with a Flask backend and PyTorch CNN model for AI-based drawing recognition.
- **E-commerce Web Application | Python, Flask, HTML, Bootstrap**
 - Built a full-stack web application with a Flask backend and Bootstrap frontend supporting product filtering, sorting and cart management.
 - Implemented server-side order persistence using JSON storage and dynamic product management features.
- **Image Editor | C**
 - Implemented a command-line image processing tool supporting grayscale conversion and rotation.
 - Manipulated bitmap pixel data structures to perform core image processing operations.
- **Autonomous Car Project | Embedded Systems**
 - Assembled and programmed an autonomous car during the NXP IPWorkshop summer camp.
 - Our team won first place at NXP Track Follower competition at Robochallenge 2025.

Skills

- **Languages:** C/C++, Java, Python, JavaScript, HTML/CSS, Assembly
- **Frameworks & Libraries:** Flask, Bootstrap, PyTorch
- **Tools:** Git/Github, Docker, MySQL, VSCode, Figma
- **Spoken Languages:** English (C2), French (B2)

Education

- **University POLITEHNICA of Bucharest** Bucharest, Romania
Faculty of Automatic Control and Computer Science Oct 2024 – Expected July 2028
Relevant coursework: Data Structures and Algorithms, Operating Systems, Computer Networks (CCNA)
Certifications: Cisco Networking Academy (CCNA 1–3)
- **High School "Alexandru Vlahuta"** Rm. Sarat, Romania
High School Diploma (Final grade: 9.90) Sept 2020 – June 2024

Activities

- **Volunteer Hackademy / LSAC Association**
 - Junior instructor at Hackademy, assisting with introductory programming sessions.
 - Member of LSAC (Human Resources Department), contributing to the organization of events such as AI Bootcamp.
